Thanksgiving is a special time for me to be thankful for everything. I appreciate my family, my friends, and my education.

I'm especially thankful for my family because they are always there for me. They also make me feel loved and cared for. If I'm feeling upset they always put a big smile on my face. Even if I don't tell them what I want or need they always know what I need. I can always trust my family especially my sister who always listens to me when I need to tell her something.

I also appreciate my education because I always have new things to learn. Education challenges my brain. It also helps you in life, and helps you get a good job in the future. My teachers are always so nice and my school is amazing.

Finally I'm grateful for my friends. My friends always encourage me to be brave and make me laugh. They also support me and give me really good advice. I know my friends will always be honest with me.

On thanks giving I realize that I have
so many things to be thankful for. but,
family, friends, and education are just a
couple of things that I'm thankful for.
