

# I'm So Thankful!

Name Noam Lahav

Date 11/28/24

Thanksgiving reminds me of all the people and things in my life. I appreciate my family, friends, food, water and my home!

I am especially thankful for food and water because it helps me grow. I am also grateful for water because it keeps me hydrated. I am thankful for apples because it's very sweet and juicy. I'm also grateful for candy because sweet and sugary which I enjoy!

I also appreciate my family because they care for me. They also make me food and buy me presents. I am also grateful for all the hugs and kisses my parents give me. I am thankful for my friends because they play with me. I am also thankful for the movie nights I have with them!

Finally I am grateful for my house so I can store all my belongings. I'm also grateful for my living room because there I can watch TV. I am also thankful for my room because I can have my own space that is just for me. Finally I am thankful for my garage because there I can store my bike and my tools!

As I enjoy this holiday season I realize that I have so many things to be thankful for. Food and water, family and friends and my house are just a few things I am thankful for in my life!
