

NYS Senator Lea Webb Gratitude Challenge

What Are You Thankful For?

I am thankful for my family and friends, because my family gives me a good home with heat, they make me good food, and my friends make life more fun.

I am thankful that my family gives me a good home with heat, because if I did not have a heated home, in the winter, I would be very cold, and sick.

I am thankful that my family makes me good food, because if they did not make me good food, I would go hungry. I love when my parents make pasta for dinner!

I am thankful for my friends, because they make life more fun. I am thankful for this because when I am feeling down, they always cheer me up!

In conclusion, I am thankful for my family and friends because they give me a good home, make me good food, and make life more fun.
