

NYS Senator Lea Webb Gratitude Challenge

What Are You Thankful For?

I am thankful for my grandma. One reason is she will stop doing anything to make me food or help me with homework. For example, if she was shopping online or sewing or anything she would stop just to help me or feed me. I am grateful for that because it shows she cares about me.

Another reason is she gets me presents for no reason other than she loves me. For example, if I tell her I saw something or want something she will get it for me. I am grateful for that because I don't need everything she gets me, and she knows that, but she will still get it for me.

Another reason is I can talk to her about anything and trust her. For example, if I am sad I can call her and know she will answer and talk to me or let me come over. I am grateful for that because sometimes I need someone to talk to and when she talks to me anytime I need her it makes me feel special.

I am so thankful for my grandma.
