

I am thankful for my family because when I am sad they comfort me. Also when I am sick my mom takes care of me. And I love to go fishing with my dad. We always have such a fun time together. When my nani and I are going shopping we have an amazing time together and it is always so much fun. I am also thankful for my family because I have a amazing time with my papa's they all make me happy and a lot of fun with them. My nanie and nana are a lot of fun when i color with them and play with them I swim in there pools and have a amazing time with my nanie and nana. I am also thankful for my step mom and my step dad makes me laugh a lot. And I am thankful for my dogs and my cat. I love to snuggle them and play with and my cousins are fun to play with. And that is why I am thankful for my family.
