

"Peaceful Sky" by Diana Gudz

The skies I look at from above
Are the same foreign ones
That my parents took the *big* step for.
They left their comfort back at home
To help me pursue the life they always dreamed of.

Every single day of my life,
They did their best to help me out.
While working day and night,
They still made sure I was alright.

No other person in my life
Will ever make such a sacrifice
As those who brought me into this life.

I will always be thankful
To the parents who chose *me* over dreams.
Just so I could live in a country with a peaceful sky,
And food on the table both day and night.
