

Family and Friends

I am thankful for my family and friends. I'm thankful for my family because I've known them my whole life, and they are caring. For example, there is my Uncle Mikey. He's always been there for me, and he's funny and cool. Also, I'm thankful for my friends because they're there if I need help, or if I'm feeling lonely, and I can hang out with them. In addition, I'm thankful for all of them because they're all part of my life and are fun to hang out with most of the time. Overall, my family and friends are the people that I'm most thankful for.
