

What I am Thankful For
By Mason Peeples
Cortland Junior High School

I am thankful for my family and my Xbox. I'm thankful for my Xbox because I got it when I was about five or six years old. I'm also thankful because my family put time and effort into it for me. Also, they have always been supporting me for my life, so I'm grateful to them. Getting my Xbox was one of the best moments of my life because I love my family. I'm always supporting them. I feel like I deserve this because I am always helping my family. Also, I love my mom, my dad, and my brothers. So those are the people and console that I am thankful for.
