

MY MOM

I am thankful for my mom. One reason

I am thankful for her because she's a
good cook. For example after long days at
school she cooks my favorite meal, stir fry.

Another reason is because she takes care
of me. For example she makes sure I look

and smell nice everyday. One last reason is

because she gives me good advice. For example
when I have issues with people she helps.

I am very grateful for what she does for me

by the way I want to say thank you.
