

Grateful for My Friends
By Elise Totman

I am grateful for friends because they are always there for me when I need them. They are also kind, loving, and friendly. Another reason is that if I did not have friends, I would be lonely and sad. They give me good advice and confidence. They say that I'm "pretty" and that I am "really kind." Another reason why I'm grateful for my friends is because they are really funny. They like to scare me, which they think is funny. They make funny jokes, and we do these really funny or cringe tik tok together. That is why I'm grateful for my friends.
