

What I Am Thankful For
By Aaron Forehand

What I am thankful for is my xbox. I like playing video games because it is fun .My xbox looks like a flat rectangle. It is made of computer components and it has a power cord to plug it in. The color of my xbox is black. My xbox is about 3 years old. I keep it in my room on my nightstand. The games I play are 2k 21,Fortnight, Madden, and Fall Guys. It has a built-in fan to cool it down when it gets too hot. These are the reasons I am thankful for my xbox.
