

My Race Cars

By Jackson Marks

Cortland Jr. High School, Cortland NY

I am thankful for race cars. If I didn't have my race car, I wouldn't have been able to travel to race tracks that the real Nascar races on. I also wouldn't have met most of my friends and been able to go all around the United States. Two of my cars are a 2017 Stanley Bulldog and the newest one that was made in 2022, which is a Bullet chassis. They were all made by Ron Stanley. If I didn't have my cars, I wouldn't have been able to go to Indianapolis Motor Speedway and Watkins Glen and watch the NASCAR cup series, xfinity cars and the SRX series and meet Kyle Busch, Anthony Alfredo, William Byron and Joey Logano.
