

Hello, my name is Jack Miller. I am a sixth grader at Boquet Valley Central School District. My favorite country is the United States of America. My hobby is playing basketball. I also like playing pickleball. I am 11 years old. Three qualities that I'm thankful for are I am artistic, joyful, and organized.

One trait that I'm thankful for is that I am "artistic." I am a spectacular artist. I drew the Northern Lights in 3rd grade. My drawing looked good. Being artistic can help me in the future because it is a hobby and I can improve by practicing more sketching and calligraphy with Ms. Larkin. I like calligraphy.

Another trait that I'm thankful for is that I am "joyful." I have a very good, optimistic attitude. This makes other people happy too! Also, my smile is contagious. Being "joyful" can help me in the future by being happy everyday and by making other people happy. I will continue to show a positive and a confident attitude.

Another quality trait that I'm thankful for is being "organized." I am a really good cleaner. My desk is very organized with everything in its place. Being "organized" can help me in the future by helping me. I can improve by being organized, by being clean, and well put together. I can also have perseverance in different ways to help me clean more.

All of my qualities show how to be a better person in life as well as how to do great things in life. I will continue to learn from my mistakes. I will keep in mind that good things take time. I will force myself to try different situations. I'm thankful for all my qualities because these qualities make me the best person that I can be. I can improve my qualities by being positive and being optimistic for everything in life.
