

By Everett Feeley

Hello, my name is Everett and I am in 6th grade. I go to the Bouquet Valley school in the Adirondacks. The Adirondacks are colorful and peaceful. Some qualities I would like to share with you are that I am loyal and smart. I am also athletic and fast.

The first quality I would like to describe to you is...Athletic! I am athletic because I am full of energy and I am fast. When I am out at recess,I am one of the fastest out there! Almost every day I am out playing football with my friends. Some positions I play in football are wide receiver and quarterback. This will help me in the future because it will keep me moving.

The second quality I would like to share with you is ...Smart! I am smart because I get a lot of questions right. I am thankful for this quality because it gets me good grades. Another reason I am thankful for this quality is it pairs well with athletic because in football you have to be smart with the plays and fast. I can get smarter by studying more and practicing. This will help me in the future because it might get me a good job.

My last quality today that I want to share with you is loyalty. I am loyal because I help my friends when they need it. I am thankful for this quality because that means I am a good friend. This could help me in the future because I might have to help people when I get a job. I can improve this quality by continuing to help my friends.

Those are some of my qualities: Loyal, Athletic, and Smart. I am proud of these qualities. I am very thankful for these qualities because they make me a good friend, teammate, and student. These qualities will help me in life. I can improve all of these in the future.
