

Qualities Essay

My name is Philip Solon Bisselle. I am a 6th grader in the Boquet Valley Central School District. I love going outside. I also love hunting. I am thankful for my traits: curious, active and thoughtful. All these qualities describe me in all sorts of ways.

One of my favorite qualities is being active. My friends describe me as active because I am an outdoor kid. I play many sports like basketball and baseball. I also do some hiking and hunting. I love the outdoors because I can walk and enjoy the pretty scenery around us in the Adirondacks. Being active will help me in the future. When I get a job, being active will help me on a daily basis. Walking and running can help me relax at a job.

The next quality I have is thoughtful. My friends and family describe me as thoughtful because I think of other people. I love doing it. Some ways I am thoughtful is I help others. I work for my neighbor doing some lawn work for her. When I help my neighbor it makes me feel good because she needs a lot of help.

My last quality is that I am curious. People describe me as curious because I like figuring things out. I also love looking at new things. Some examples are when I just randomly take the whole vacuum apart. I love curiously taking things apart. Also I like to learn how things work. I can also put things back together. This will help me in the future if I decide to be a mechanic.

I am thankful for all my qualities. My qualities are what bring out the best in me. They make me my own person. Altogether, they help me grow. In the future all of these qualities will help me in all sorts of ways. If I work at a store I can help people every day. That is why I am thankful for all the qualities.
