

Thank You for Everything

By: Anthony Wong 6th Grade

I am thankful for...

My brain that allows me to think and tells me what to do.

My arms and legs that allow me to do the things that I enjoy.

My heart that tells me whats right and wrong.

My eyes and nose that allow me to function better.

My mouth that allows me to make new friends.

I am thankful for...

My mother who taught me how to walk.

My father who taught me how to be better.

My sister who helped me improve my education.

My grandparents who taught me how to work hard and persevere.

My family that taught me how to get through the toughest of times.

My friends that allowed me to stop being lonely.

I am thankful for...

My dreams that encourage me to keep on going.

My goals that tell me what I need to accomplish in life.

My emotions that taught me that you can't control everything in life.

My mistakes that teach me what to not do in the future.

The special moments in life that leave endless memories for centuries to come.

The ability to be thankful to express my appreciation.
