

I am thankful for A Roof Over Your Head and the Floor Beneath Your Feet. Your home is so much more than just a shelter. And for the protection from the army for fighting for everyone's life and freedom.

I'm thankful for Friends and Family Bring Life Meaning. And to be a life in the world I'm thankful for everyone that I have in my life and family and friends and besties.

I'm thankful for food and water if not people would die and there would be no people on earth. People these days are vegetarian and some are meat eaters and that's ok that means people have food to eat and don't get about the salads and the greens to keep you healthy.

I'm thankful for everyone on earth to live forever and the people that did that were the army people and we owe them all thanks for everything, even freedom the army does a lot for us to have a great life.

I'm thankful for holidays and family. You get to spend time with your family on holidays because the army is everything without the army the world today would not be the same it would be weird and different.
