

Dear Senator Hernandez,

Many people in America are thankful for different things. Some people are thankful for the moment, others are thankful in general, some people aren't thankful at all. I am writing this essay to show everyone what I am thankful for.

I am thankful for my family, not just mom and dad, but also for sisters, cousins, aunts, uncles, and everyone else in my family tree not just because they are my family but for what they have done for me from conceiving me and giving me food, to taking care of me now.

Another thing that I am thankful for is having someone to believe in, that person being God. The reason I am thankful for having someone to believe in like God is, because if it wasn't for God I probably would have suffered a lot for example I prayed to God so that he could help my family stay safe, but if I never did that I would have spent the whole day thinking about people and what would happen. God gives me a sense of reassurance and control and if it wasn't for you I myself would not know where I would be today, but what I can say is that without God I probably would not be here writing this essay.

Whether you are a kid, a grandparent, or a felon, I think that there is always something to be thankful for. Sometimes you can't see it at the moment and other times you can, but either way there is always something to be thankful for.

Sincerely,

Rei
