Ms. Gordon 8-1

What qualities am I thankful for? I do not have many qualities that I am thankful for because I never put too much thought into it. I guess being “humorous” is a quality I am thankful for. A reason why I am thankful for this quality is because I love to see and make people laugh. Another quality I am thankful for is intelligence. I would like to believe that I am smart in diverse ways than just school. I am thankful for this quality because it will help me later in life. The final quality I am thankful for is that I am courageous. The reason I am thankful for this quality is it gives me more confidence to pursue my dream and seize opportunities. These are some qualities that I am thankful for.
