

What am I thankful for this
year?

BY:Nikoloz Dobizhi

What am I thankful for this year?

Every year I am thankful for that one more wonderful year that I will have. I am thankful for my family and every single second, minute, hour, and day with them. I am also thankful for my brother, who makes my life more fun, and more crazy for me and my family. I am really thankful for the new amazing friends I got this year. I am really glad that I am on a new team in soccer, which is one of the best in brooklyn. I am really really thankful to myself that I trained myself and made myself a better person. I am really thankful to play better soccer this year. I can't wait for the new year that is coming in about a month, and I am glad that when I will think about this year I will be grateful for the amazing memories I will remember.
