Poem

I like playing sports
I live on the courts
I'm thankful for my coaches
They help me beat these roaches
With one coach I practice a lot
Another coach makes me do squats
Although they put me through pain
It is all for gain
Tennis is the best
Tournaments is where I contest
In those tournaments my family supports me
So do my friends
All these things will help in the future
And all help me now
So when I become successful
I'll know how.
