

Qualities I am Thankful For
By Alexia Klimek

I have many qualities that I am thankful for. One quality that I have that I am thankful for is that I am artistic because I am good at art. I feel that my drawings are good. My second quality is kindness because I am kind to others. When they are kind to me it makes me feel good. My third quality is funny because I make people laugh. I make people smile when I'm funny to them. My fourth quality is smart because I am good at ELA, math and writing. I feel that I get good grades on my tests. These are some of the qualities that I have that I am thankful for.
