

Qualities I am thankful for
By Dermot Cross

I have many qualities such as being smart and I can prove that because I know $10+1,000=1,010$. I am also artistic because I made a painting of my house. I'm also patient because when my mom does something for a while, I can wait to ask a question. I'm also very athletic because I'm very good at running in football, and I'm good at soccer because I can score a few goals for the team. I am also caring and I enjoy being with my friends. I love being with my parents and I like playing with my sister, and my baby cousin.
