

Qualities I am Thankful For ...

By Kiera Delahunty

I have many qualities to be thankful for. One quality that I have that I am thankful for is that I am artistic. I practice often to improve my skills. Another quality that I have is that I'm good at math. Math is my favorite subject. Another quality that I have is that I'm silly. I like making funny faces at my little sister to make her laugh. A final quality that I have is that I'm kind. I try to be kind to others by helping my friends when they are hurt. These are a few of the qualities that I am thankful to have.
