

# Thanksgiving Day Celebration

## Qualities I am Thankful for

As Thanksgiving is getting closer this is a time where people reflect on what they are thankful for. I am very thankful for a lot of things like my loving, caring best Parents who love me and care for me so much and I am so thankful for that. I am also thankful for my siblings, my older brother Jacob and my younger sister Juliette even though my sibling could be annoying or rude at times I still love them so much and I am so thankful to have siblings as friends. I know that a lot of people aren't as fortunate as me and that makes me so sad. I am thankful for what I have and I am also thankful for my qualities and the things that make me special.

A quality that I am thankful for is my athletic/Tennis ability. Tennis has been a very important part of my life for the past few years. I am so lucky to have parents who can pay for tennis lessons and tennis rackets. I am thankful for all the experiences and lessons tennis has taught me. I am thankful for all the friends I have made through tennis. I am thankful for all the places around the world I have been able to visit to play tennis. I am thankful for all the coaches that have helped me become the best tennis player I can be. I am thankful for all my competitors for pushing me to be the best I can.

Another quality that I am thankful for is my ability to understand people. My ability to understand people makes me a better person because I try to feel what it is like to be in someone else's shoes

The final quality that I am thankful for is my humor. My humor makes other people laugh and when I see other people laugh that makes me happy. So that's why I am thankful for my humor.

-Grayson Prince
