

# Qualities I'm Thankful

Qualities are different the same way people are different. Qualities is what makes a person unique. There are positive and negative qualities. The qualities that I am thankful for is being artistic, being happy, and kind.

Art helps me express my feelings. I use it as a relaxation method. Knowing how to draw is good because I can use it in the future for money. People can be inspired by my art. I can also become famous.

Being happy is another quality of mine I'm thankful for when I'm happy others. It helps me be nice to others. Happiness is not always easy to have, but the happier you are the better life is.

The last quality that I am thankful for is being kind. Being kind helps me get far in life. When I'm kind to others, they are kind to me. It's not easy to be kind all the time, but I try my best. Spreading kindness is helpful, because the more kindness the less bullies.

AS I have my own  
Qualities that I am thankful for-  
being artistic, kind, and happy.  
There are other qualities that people  
have. These qualities makes them  
unique. Other qualities make the  
world better! Some qualities are  
the same, some are different.  
No matter what you have at least  
one quality that you should be thankful  
for.
