# My Thanksgiving Essay

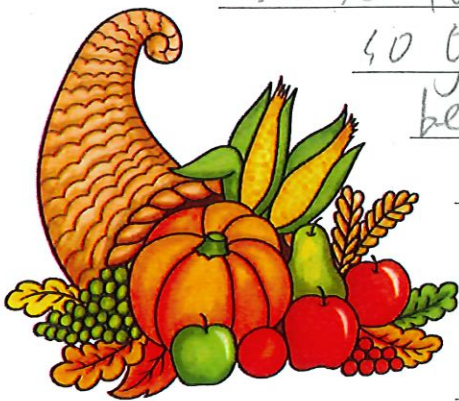

by Lior Nisanov

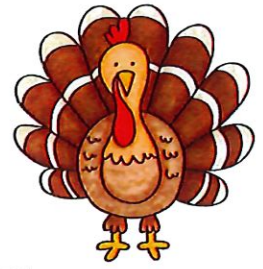

Abraham Lincoln made Thanksgiving a holiday in 1863. The Native Americans used to fast on Thanksgiving. I love Thanksgiving and I gather up at my grandma's house. I am thankful for family, toys, shelter, water, food and clothes.

I am so thankful for my family. My mom is so nice because she helps me with homework. My dad is so caring because when I get hurt he helps me up. My brother is very fun to play with because we play soccer and I love soccer. My cousin is great because she teaches me new things that I did not know. An example is she taught me the times tables when I was young.

I am so thankful to have toys to play with. My trampoline is so fun to play on because it is bouncy and makes me go high up. My basketball hoop is fun to play with my cousins. My legos are so fun to build with my brother. I am

so grateful for my Pokemon cards because I enjoy trading them. I am so grateful for my soccer cards because I love opening soccer packs with my brother and discovering new cards.

I am so thankful for shelter, water, food and clothes. I am thankful to have shelter from the rain and snow because it keeps me dry. I am thankful to have water and food because they keep me hydrated, healthy and alive. I am thankful to have clothes because they keep me warm. I am also thankful for clothes because they keep me dry from the rain when I go outside and it is raining.

Thanksgiving is one of my favorite holidays. I love gathering with my cousins at my grandmas house. My family, toys, shelter, water, food and clothes are things I am grateful for.
