What I'm Thankful For

I'm thankful for being alive.
And for my brain
because without it
I would not be able to learn.

I'm also thankful for being smart
because if I don't get good grades
I won't go to Middle School.
I'm thankful that my future is bright.

I am thankful for being funny
so I can make jokes with my friends and laugh.
I'm thankful for being nice and for being honest
so that I don't get into trouble.

I'm thankful for my personality
because it makes me unique.
My personality is what makes me who I am.
I am most thankful for that.
