

I'm So Thankful!

Name Joey Troman

Date 11/23

There are many things I'm thankful for, I'm thankful for food, I'm thankful for my family, lastly I'm thankful for my friends.

One of the things I am thankful for is my family because they give me food when I am hungry. Also, my family care about me and they are nice. They are also nice when I need help they come straight away to help. My family always celebrates holidays such as Chanukkah.

One other thing I am thankful for is my friends because friends make us happy and active. As friends we be nice and play with them and they will do the same. We also can play games with each other either on mobile or real life. We can have friends in school or neighbors.

The last thing I am thankful for is food because we need it to live. Some foods are really healthy such as fruits and vegetables, and others are not healthy such as cake and cookies. Everyone should be thankful for food because some people don't have much food.

These are the three things I am thankful for. Family, food and friends is what I am thankful for this year on Thanksgiving.
