There are so many things I am thankful for. On Thanksgiving some of them are school, family and nature.

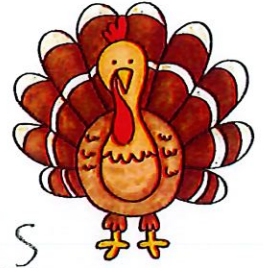

The first thing I am thankful for is family. I am thankful for my family because they care for me. Another reason is because they give me company. The last reason is because they love me. These are 3 reasons why I love my family.

The second thing I am thankful for is school. I am thankful for school because they teach me and help me get a good education. Another reason is because I make new friends. This is why I am thankful for school.

The third thing I am thankful for is nature. I am thankful

for nature because  
it is fun to walk  
through. Another reason is  
because people live there.  
The last reason is because  
it is a fun vacation.  
These are 3 reasons why  
I am thankful for nature.

These are 3 things why  
that I am thankful for
