Grade 4

My Qualities

Some qualities I have are being athletic. I play baseball, football and basketball. I like playing these sports because they are fun. These sports help me gain strength and confidence.

I am kind because I donate food, water and clothes. Every year we do a food drive in my school around Thanksgiving and Christmas. That's how they get their food to eat. I like to help the poor.

One last quality I have that I am thankful for is curiosity. I love learning new things about science, history and religion. I can have conversations about the things that I am curious about.

Those are the qualities that I am thankful for and I love them.
