## Thankful Essay

I have many qualities that I am thankful for. Like my respect for others. Respecting others is a good thing to do because it brightens people's days and it makes me feel good to see them smile. Respect is a great quality to have because it helps you make friends and help people feel better. Respect is an important quality to have because if you have respect for others, they will have respect for you. Respect is a great quality to have.

Another quality I have is that I am creative. I like to paint and make stuff out of paper/cardboard. I think being creative is important because you get to be yourself in a different way. I am creative in a way where I like to paint and draw. My favorite style to paint and draw is abstract, which is the form that can be whatever you want it to and it does not have to be a specific object or person. I think creativity is important because you get to show different sides of yourself in your art.

I am also athletic. I play 3 sports. I play cheer, soccer, and basketball. Even though it is hard sometimes to play all those sports and still go to school and try to get good grades, I still love all the sports that I play. I think being athletic is important because you get to have fun experiences and you get a lot of exercise.

Another quality I have is that I am careful. Being careful means you are very worried about your safety and other people's safety. Being careful is a good trait to have because you will not get hurt often. Being careful can also be a bad thing because sometimes you miss out on fun things or experiences. Being careful is important because it helps you be safe and prevent a lot of bad stuff from happening to you.

All of these qualities shape me as a person and I am very thankful for each and every one of them.
