

I'm thankful for my heritage  
And for all the traditions that come with it  
The foods that are served show freedom and pride  
All the music shows emotion and the stories of people's lives  
I'm thankful for my religion  
At school I go to church each week to learn about God and his son  
Jesus saved us from sin when he died on the cross  
Through my religion I learn to be a better person  
And live in the image of God  
I'm thankful for my kindness  
Helping people nearby instead of just walking away  
I donate my old clothes to others  
I'm thankful for my intelligence  
It helps me do well in school  
I help friends study for an upcoming test  
I work hard using my brain to become a computer coder  
And giving me more job opportunities for when I get older
