what I'm thankful for

I thought about the things I'm good at. I chose being artistic. I am very thankful for being artistic. I'm also thankful for being friendly to everyone I meet.

I'm also thankful for being artistic. My mom says my art is special to her. When I was six I went to a studio with my friend. My grandma taught me how to draw and paint.

I'm also thankful for being friendly. I make new friends at school easily. I am very friendly to my family and my friends. I am very nice to everyone.
