

i am so worried about others
that there's no time for anything
but i do love to make people smile
i get that from my mother
definitely not my brother

people would call me negative nancy
but i'm more sensitive
don't try to be me
because there's you and there's me

this life that were living
there's either 100 pieces or 1000
one day can hit you harder than a storm roaring in
