

Hi my name is Eden Moulton. I am from Elizabethtown, New York. Some things I like to do are play with my dog, hang out with my family, color, and camp. Three qualities I am thankful for are that I am kind, funny and caring. These qualities will help me in the future.

I am thankful for being kind because if you're kind to people, you can make them feel better and you can also make them happy. Kindness can come back to you. A time I have been kind is when my dad needed help with something so I helped him. This quality can help me in the future because if you're kind to people and not mean, you can be a better person and make people feel better.

Another quality I am thankful for is that I am caring. If you're caring for someone, other people might be nice or caring back. A time I was caring for someone was when somebody looked upset or down I asked them what was wrong or if they were ok. It made them feel better. This quality can help me in the future because if you're caring for someone, you can be more thoughtful.

The last quality I am thankful for is that I am funny. If you're funny, you can make people laugh or be in a better mood. One time I was funny was when I did something and my friend started laughing. Then, we both started laughing and felt good. This quality can help me in the future because if somebody is having a bad day or if they are sad about something, I can cheer them up and make them happy.

I have many qualities to be thankful for. I am most thankful for being kind, funny and caring. Someday I wanna be in the army. These qualities can help me with that. Thank you for taking your time to read this.
