Hi my name is Taylynn St.Dennis. I am from Plattsburgh, NY (well at least I was born there). I now live in Elizabethtown, NY. My main hobbies are dancing, playing sports, going to school, and more. I'm known for being fun, hardworking, and kind. I never give up. I always keep trying! I'm known for being all of those things because I help anyone who needs it. I always have my hands up during class and I'm also fun to be around! These traits might help me create a good, positive environment!

I am fun because I like to play outside with my friends. Sometimes we will play tag, hide n seek, or other games! I'm also always doing something whether I'm at school, at a friend's house or even on my own! I'm thankful for this trait because I don't like to be bored. I like having fun. My friends tell me I'm fun because I'm always having a good time! Another reason I'm fun is because if they ask me if I want to play with them, my answers are almost always yes every time! This quality may help me be a bright solid smiley person that makes others feel good too!

I am also hard working. I work hard everyday with a positive attitude. I like to think of the positive things instead of the negative. I solve problems when things get hard. My friends even say I'm positive and I always do my best work. I am also hard working because when I try my best, I mainly succeed and feel good about myself afterwards.

Other people also tell me I'm kind. These include my friends, my family, and even the strangers walking past me on the sidewalk. My friends say I'm kind because I help teach them if they don't understand a question in a polite manner. I like to think being kind makes you a better person inside and out. It helps others feel better about themselves. And it helps others think of the positive instead of the negative, it helps them know you care!

Those are the three main qualities I am grateful for! My teacher Ms. Kiely tells me I'm positive, bright and a hard worker. I feel myself becoming a better person everyday, because I'm those things! I see myself working hard because I always try my best. And I see myself being fun because I like to have a good time! I believe anyone can be anything they want to be. I am proud of who I am!   *Sincerely ~ Taylynn St.Dennis*
