Mr. Andersen

What I'm Thankful For This Year.

Bryan Tran

This year I'm thankful for my computer of how long i had it. I'm grateful that it is a HP all in one computer. My computer is still very fast for how old it is. I had it for 3 years and it served me hugely. It had so many features with it like games, videos, etc. When I got class work on the computer I can do it. Some examples of how it helps school is like when I get a google classroom assignment or maybe a castle learning assignment I got it on my computer to do. I got it in 2012 because it came late.

Another thing I'm thankful about is my family. My family is very good to me. My mom is the one who got me to the world and my dad helped. My sister is almost always there to entertain me when I'm bored. My mom would drive me everywhere and give food wonderful food, while the dad supports the family. If i didn't have them i would not be here typing this probably.
