

I am thankful for!

By:Alexandria VanderVoort

I am thankful for having an amazing teacher that helps us get the work done but still makes it fun.

I am thankful for having an amazing teacher that helps us get the work done but still makes it fun. Mrs. Smith is my favorite teacher. Mrs. Smith is my favorite teacher because all of my other teachers were not as caring, fun, helpful, and just amazing. My favorite thing to do is Social Studies and Math because in Math we did Mad Minutes. Mad Minutes are where we have one minute to to complete twenty multiplication problems or more and when you pass your thirteens you get ice cream from the teacher. In Social Studies we got to do a research project using Google Slides. we did one slide with a partner and two by ourselves, and

when all of them are done she is going to make one big class slide presentation.

That is why I am thankful for having an amazing teacher that helps us get the work done but still make it fun.
