

## Stronger Together

By: Bryan Bautista

We are all grateful for something  
That is something we cannot hide  
When all of us share and thank though  
There is so much more we can find

I am grateful for my family  
All the food they provide  
School may not be so simple  
But it is worth it when you see the inside

We are all different and have conflicts  
No matter what  
When people come together and express our feelings  
We see were quite alike

All of us may dislike something  
Maybe it is boring or hard  
But that is what makes us stronger  
So we should be grateful overall

We are grateful for a variety of things  
Family, food, friends and more  
It is fun to see everyone having a good time  
Learning things about our family we never knew before

Thanksgiving is always a great time  
It is a time of giving thanks to those who support us  
We should never feel lonely during this time  
At this time of year there is always something to feel good about
