

What I'm Thankful For!

By Georgia Moss

I am thankful for my parents because they always support me in everything, they never let me give up on anything. My parents help me accomplish my goals.

My parents have jobs so that we can have a house for our family to live in. They have them to let us have food, electricity, and more.

Without my parents I wouldn't be here, I wouldn't exist! My parents are glad I'm here. They still love me. Even though I am bratty sometimes! That is why I'm thankful for my parents!
