

I AM THANKFUL FOR

By Madison Allen

I Am Thankful For.....

Every day I wake up and I don't even realize how thankful I am to have the things that I have. I look around and I think about the things that I am thankful for. Here are some things that I am thankful for.

In my life, I am thankful for a whole lot of things but here's just one thing I am thankful for. I wake up every Moring and I am able to be with my mom and dad. Unlike some children who can't even see or wakeup with their own parents. There are some children in this world whose parents put them up for adoption, because their own parents did not want anything to do with them. I am thankful that I could wakeup and actually be with my own parents.

Every year I am able to go on vacation with my family and friends. I am thankful to have the opportunity to go to Arizona, Cayman Island, Disney world, Maryland, Puerto Rico and those are just a few. I am thankful that I even get to go on trips and get on the plane. Unlike some kids who can't do those things. We all need to be mindful of all of these things.

I am determine that I have the opportunity to go outside to play and have a whole lot of fun with my family and friends. Unlike some kids who can't even see the day light. There are some kids in this world who don't really have that so we are just very lucky to do and to have the things that we have.

Last but not least, I am thankful that I have the right to freedom. Freedom is a very important word. It is a human right. And it is very fundamental for all of us to have the right to

**freedom. It's not just kids there is a lot of people in
this world who don't have the right to freedom.
We all just don't know how bless we all are!**

What am I Thankful For?

My family is the most loving people in my life. Although they make me mad you still have to love them Some people in the world don't have families, so be thankful for your family . Their are thousands of kids that don't have families in the world, that's why we have a holiday called Thanksgiving .

My family is the most special thing , more than school and my house. If I was at school and I didn't have any family members, then who would pick me up, that's why I am thankful for my family. For example if I am home alone and I want food who do I my mom or my dad, I call my dad mostly. My family is the best thing in my life, now that my mom stated collage last year because she had my brother when she was 18 years old. This summer my dad, my brother, my mom and I went to the Dominican Republic and my mom spent hundreds of dollars for an all-inclusive hotel , call Iberia Star.

On Thanks giving my family cooks a lot of food such as macron- chesses , beats, rice and peas, curry goat and many more I am going to be making white rice. My family is from Jamaica so they make alot traditional food. After I started to plan out what gifs I am giving to my family, members for all the things they have done for me. If I didn't have no family members I would be poor. My family is very special people in my life, and they motivate me to do what I can do. That what I am thankful for.

Thanksgiving

By: Krystal Lachamnen

Thanksgiving is in the fall and thanksgiving is amazing. Every November I think about what I'm great full for. I'm great full for 16 things. But there are 3 things I am most great full for and they are my family, my friends, and my life.

There are so many non-great full people out there like people who say they want to kill them selves. Those people who say they want to kill them selves are non-great full people. Also, they don't know how to solve their problems but to do that. People who say that always want to be alone so they can commit suicide. But people should never be alone when someone is going through something.

I am great full for life cause I wouldn't be alive without. Life is the best thing that ever happened to me!!

I'm great full for my family because they help me with everything. They are so

helpful, thoughtful, & giving. I treasure the moments that I have with them because I don't get to spend much time with them a lot. I love them very much.

I am thank full for my friends because their trustworthy. Also, they are understanding. They are also, helpful and most of all awesome. I don't know where I would be if I didn't meet them. They have so much meaning in my life. I also love them very much.

In conclusion, this is what I'm great full for. Those things are my family, my friends & my life. Fall is the best time of the year because of Thanksgiving & many other things. I love every November that I have.

Everything I am thankful for!

Everyday I wake up and see everything that is special to me. I see shoes, a TV, money, clothes, and a lot more. I'm very thankful for my family because if it wasn't for them I wouldn't have a roof over my head. Also, I am thankful for my family because if It wasn't for them I wouldn't have shoes or clothes to wear. My family is the best family because they support me no matter what and give me or buy me what I need.

To begin, something that I'm really thankful for is my family because my family teaches me right from wrong and makes me happy no mater what. My family is the best

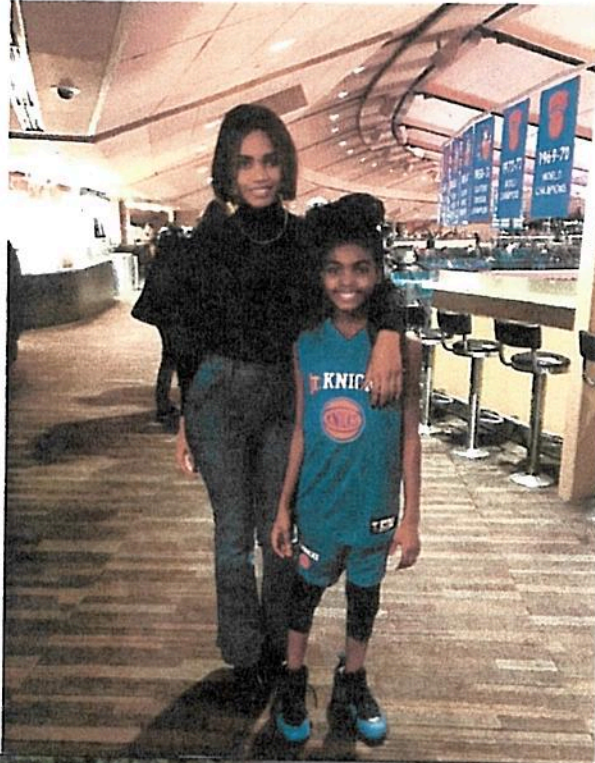

family because if it wasn't for them I wouldn't have food on my plate or water to drink because many people don't buy food or water for their kids and that's how they die. I am thankful for my family because if it wasn't for them i wouldn't be in school I would be home. Having a family is the best thing because my family helps me with whatever I need. If it wasn't for my family I wouldn't be here.

In addition, if it wasn't for my family I wouldn't be smart and I wouldn't have knowledge. My family taught me many things like school is for education not playing and that treat others how you want to be treated. Also, having a family is important

because when you need something they are there to help. If many people didn't have a family they wouldn't have clothes, shoes, TV, food and a lot more. And most importantly, I'm thankful for waking up every morning and seeing my family.

To sum it all up, everyone should be thankful because they have many human rights. Everyone has the rights to be treated equal and fare. Also, to sum it all up, having a family is important for many reasons.

Everything I am Grateful for....

Everything I am Grateful for.....

Every day I wake up with bright things around me. I even see people who loves me and care for me. I also see clothes, shoes, TV, bed and books. I am very grateful to have a roof over my head over and food to eat. If it wasn't for my mom I wouldn't be here. She takes very good care of me and is always there for me when I am in need.

To begin, I am so happy that I have family that loves me. I believe that family is the key to life. It brings positive energy that last a lifetime. I am from Michigan, and every Holiday and summer vacation I visit home to be around family. It's always fun and exciting thing to do like, go cart-racing, playing basketball against my cousin and going to the wave pool. I am also grateful for school because I learn everything I need to know. If I wasn't going to school, I wouldn't know anything that I know now. Education is very important and I take it serious. There are people that don't have a roof over their head, food to eat or education and that why everyone should be grateful for what they have.

In addition, being grateful will give you meaning because it allows you to find the beauty in everything. I learned from my mother that "the more grateful you are, the more authentic you become. And, I agree, showing your true feelings and being kind to whomever is beautiful. It doesn't matter if their skin tone is different, mean or have culture difference. Always be nice and respectful.

To sum it all up, you have the freedom to be who you are. Choose wisely of who you become because it makes a difference in your life and everyone life as well. Most of all I am grateful for waking up each morning that God give me. I choose to grateful for everything I have and love. What do you choose to be grateful for?

I AM THANKFUL FOR...

I've
So much to be
THANKFUL
For

BY: Taylor Austin

CLASS: 5-501

Every day I wake up and I do not realize how thankful I am for the things I have. Throughout my life I have been blessed with many gifts. There will always be that special gift I will be forever grateful for.

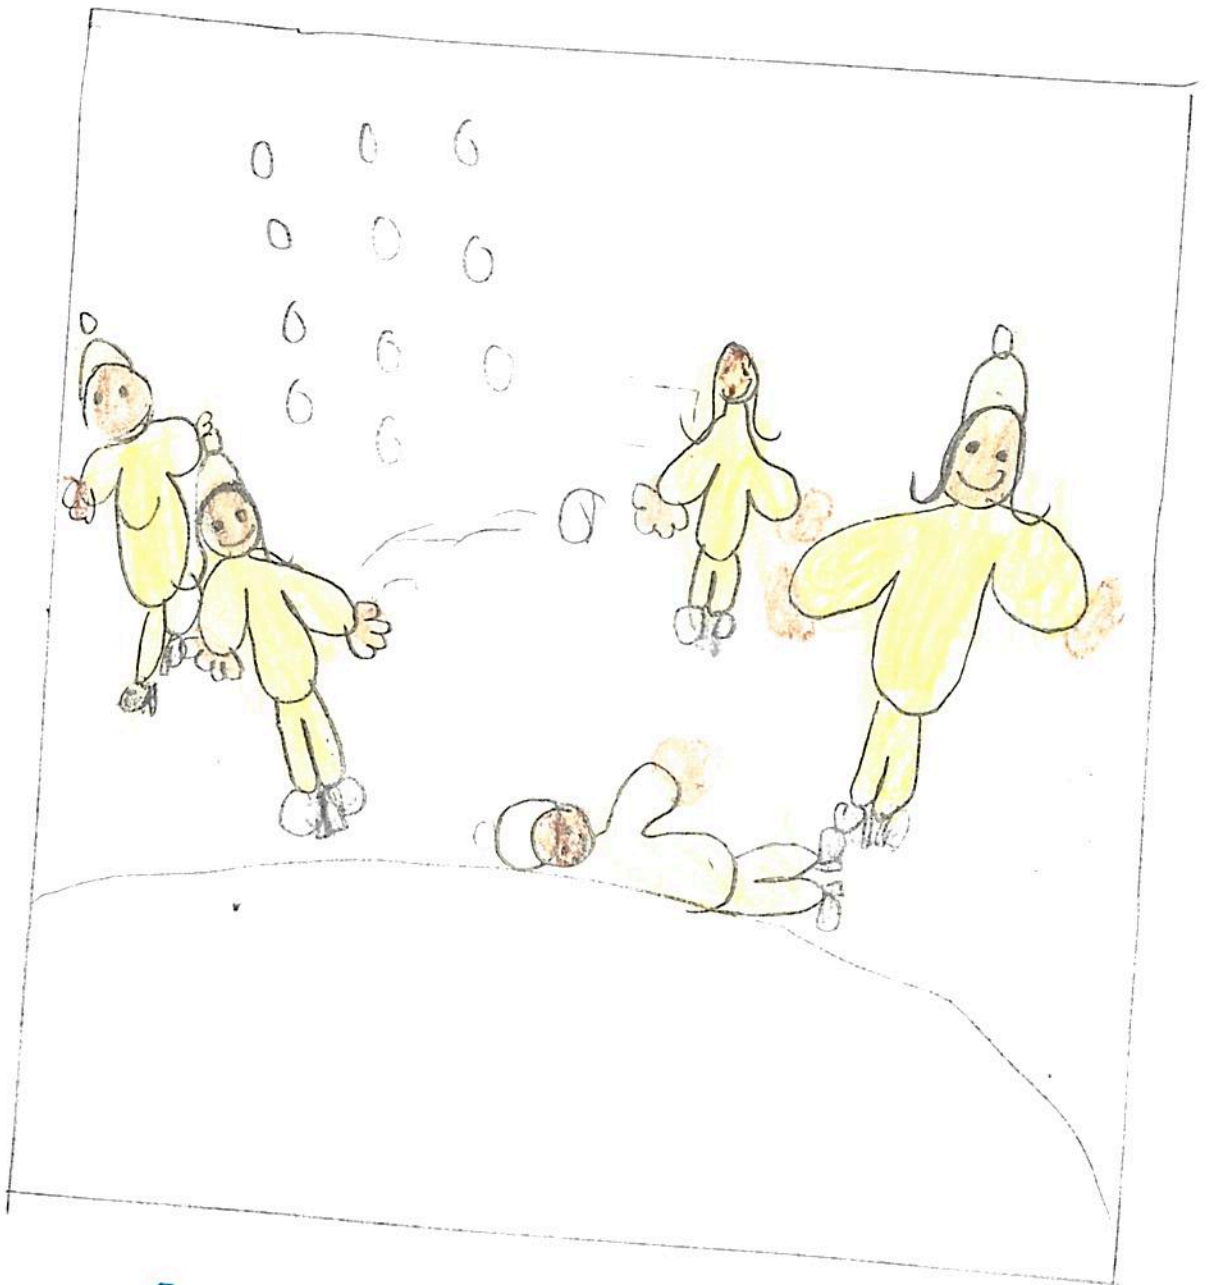

In my life I have been grateful for many things but I am extremely grateful for my family. I love my family so much. My parents take care of me. My parents spoil me, feed me and most importantly they love me. Additionally to this, my sister plays with me and keeps me from being bored. Thalia entertains me a lot.

I will forever be grateful for my human rights. Not everyone has the right to health, safety, education and play. I am able to wear what I want and speak my mind. Sometimes I take my rights for granted but, I will always be grateful for my rights.

I am also very grateful for travel. Some people don't have the opportunities to travel. I got to go places that some people will never be able to see. I went to places like Florida, Georgia, Canada, Dominican Republic and more.

There are so many other things I am grateful for. Food, clothes, a house etc. If I was to put it in one essay this essay would be one-hundred pages long. These are some of the things I am grateful for.

What I am thankful
for

By: Nia Adell

What I am thankful for

Everyday i wake up and see beautiful people surrounding me. Those people hug me, care of me, and spend time with me. Those people are my family. We love eachother dearly with all of our hearts. God blessed me with having an amazing family.

I am really grateful for my family because they help take care of me. If I was sick my mom and dad would give me soup. They would always check my tempature to make sure im okay, or if we have to go to the doctors to get it checked out and fixed. If I were to have dificult math problems my brother and sister would help me. My grandma would make sure im well fed, and cared for.

Additionally, I love spending time with the family. My papa and I would go to the park with my grandma and my brother. The ice cream truck would always come. I would get vanilla with rainbow sprinkles. In the winter time my brother, my sister, and I would go outside and play in the snow. We would drag my mom and dad out to come and play with us. When they came out it was like a winter wonderland. When we were finished we would drink hot coa coa as we talked around the fire place.

My family is the best thing I could ask for. It is a blessing to have the family I have. When i am sick or need help they take care of me, and help me. I love to play with my family. In winter, we have winter wonderlands. I am grateful for my family. I love them so much.

Friends & Family

Every day in my life I thank god for waking me up. I thank him for the old and the new. I am thankful for god. But I am grateful and thankful for family and friends. They are caring and loving to me. So I'll tell you why

In my family, I am thankful for my mom. My mom is the best. She is the best mom that taught me right from wrong. When she says do good in school, I'll try and never give up. I am and always will love my mom. I will grow up and be a teacher like my mom.

Also, in my family I am thankful for my dad. When I was not born, my dad was in the army. The army he went to was in the Caribbean. In this army my dad had to shave his hair off. My dad was always brave. So I know that I will be just like my dad.

In my daily life, my best friend forever is Alayna DeSouza. She is my best friend because she always encourages me to take challenges. Also, she always believes in me and knows I can do it.

Also, my other best friend is Anya Merced. Anya was my best friend since 1st grade. We knew each other so well. We and my other friends used to eat lunch in class during our 1st year together.

One more person that I am thankful for is Jesus. Jesus woke me up this morning. He's my father. I love him. I wouldn't be here if it wasn't for him.

To sum it all up, I love my family and friends. That is why I am thankful for all of them and because of them.
