Im thankful for my education, my health, a shelter and much more!

With my family to care for me I have things I have wore.

From place to place I have people to care for me.

So everywhere I go, I go there gleefully.

I have an education so I can learn things that make me smart!

An education means you can take part, in activities that you normally have to depart.

Having good health is very important to so you don't get sick.

When you get sick you, can't be as slick.

I am very grateful for everything I own.

That is why I'm making this poem.
