

By Achilles Imundi

### **What I am thankful for poem**

**I** am thankful for all the people sitting down at our thanksgiving feast

**A**ll the laughter and happiness that they create

**M**y heart fills with joy as we have a great feast

**T**hankful for all the food in front of me

**H**appy for all the gifts I get

**A**lthough at most the great people sitting in front of me

**N**ever thinking about the bad things left behind

**K**nocking all the bad things out of my mind

**F**inding new experiences to explore

**U**nafrail of the things that are to come

**L**ifting up my spirits for thanksgiving

**F**or I am myself and I will stay that way

**O**n my own little planet

**R**emembering all these great moments as they go by
