One thing I am Thankful for is my family. I am thankful for them because they are always there for me. Also because they love me and they take good care of me. Lastly, they pay for all our needs. That is why I am thankful for my family.

Another thing I am thankful for is all our troops. I am thankful for them because they fight for our rights. Also my great grandpa served in World War II. Lastly they want the best for our country. These are two things I am thankful for.
