

What I'm Thankful For !

by:Michael DonVito

I am thankful for football because my entire family loves it. Also if there was no football I wouldn't have a sport to play.

I am thankful for football because my entire family likes the Giants and my entire family thinks the Cowboys are BAD but I DON'T LIKE the Seahawks or the Cowboys! But my friends Ryan and Jordan like the Seahawks but I think they like them because they're good. I started playing football when my friend taught me how to play. I've been playing for 5 years. 3 years ago I became better than my friends and I

started playing Pop Warner football 2 years ago. That's why I'm thankful for football.

I'm thankful for football because I have made at least 35 friends from playing football. I wouldn't have as many friends if football wasn't a thing. I would be a big couch potato playing video games. To conclude if football wasn't a sport basketball, soccer, hockey or baseball would be the #1 sport in the US!
