

**Happy**

I'm happy to live life and be up and running  
I'm excited for next year, but I don't know what's coming  
I never thought that my teenage life would be this much fun  
Until my friends said, live life bright like the sun

I'm grateful to have my friends this year  
But I'm sad that the end of the year is so near  
However, one thing that is clear  
I won't be sad for too long because my friends are near

This year started out really slow  
But it went by faster than you know  
The year started out a little fearful  
But ended up very eventful
