do, I'm thankful for everything.
I'm thankful for how I carry
myself, I'm thankful for being
alive. I'm thankful for my class-
mates, so that we could help
one another in the correct that
we don't understand or what's
given to us. One thing my teacher
will always say to me & the
students is in the class is that
"Don't ever be afraid to ask
for help." I'm thankful for that
and my attitude because I realize
at first having an attitude isn't
going to get me nowhere in
life. I'm thankful for my parents
and my teachers by showing
me what I need to do to be
that I could succeed in life.
I'm thankful for the world
that I live in right now. I'm
thankful for the nurse that
I live in and the food that
I eat. So there for always
be thankful for what you
have or what you do.

Also being thankful in life
can help you and show
different people or high class
people that your not here
to play. We being thankful
in life shows and that what
I'm thankful for who I got
it from and that I have to
part for my self and others.
