Thankful

I'm thankful for a lot of things because some people don't have what I have. Even for the littlest things you need to be thankful for.

I'm thankful for a mom and dad because a lot of kids around the world have to live with other people or alone cause their parents left them or passed away. I'm thankful for good food because some people have to eat nasty food and I feel bad. I'm thankful for a house, some people don't even have a blanket to keep them warm. I feel very bad! I am thankful for my education because some kids around the world can't learn anything. I am thankful for friends and family because they are by my side every step of the way. Also for clean water to bath in cause some countries get dirty water. And last is clothes cause some kids walk around bare footed.

Those are all the things I am thankful for cause some people don't have what I have. Thanks for reading.

I am Blessed

During this time of year we should be thankful for everything. This world is the greatest thing that's happened. So, we should be grateful for everything this world has given us.

The things I am thankful for are my clothes. If I didn't have a family to provide clothes for me then I wouldn't be where I am today. For this reason I am thankful for my family. They made me and are at the top of the list for everything. I am also thankful for my friends, because if it weren't for them I wouldn't have a personality like I do today. I am also thankful for food so I don't starve. Without my education I wouldn't be writing this. The last thing I am thankful for is my house because without that I wouldn't have any of the other things I am grateful for.

Those are most of the things I am thankful for! I love having a great life and everyone else should be to! Everyone shouldn't spoiled because you have to realize what you have in front of you is all you need!!

Happy Thanksgiving!!

What i'm Thankful for

What makes me thankful is my family. And who ever is in my life to support me.

The reasons that i'm thankful are because my family who will always help me with problems. My mom who makes great food to stop me from going hungry. My brother, back in the day we did a lot of fun things like playing the xbox also going outside. On holidays our whole family comes together and talks about our lives! we go to everyone's house on different holidays. My uncle's house has a huge balcony that you can see the whole city from above! On thanksgiving, but on christmas there is a ton of food on the table and I always get shirts and pants that don't fit my sometimes everybody starts to laugh about me trying to put on a shirt so these are the reasons i'm thankful for.

Thankful
for

The topic I'm going to be writing about is going to be what I'm thankful for. I'm going to tell you different stuff I'm thankful for.

I am thankful for my family because not a lot of people have family's to go home to or share your feelings with. I'm also thankful for my education because, our parents spend their money on it and they want us to do better than they did when they were our age and they want us to live up to our full potential. I'm thankful for the food on my table and a roof over my head because if you think of homeless people they live outside, they don't have money and they don't have food or a roof over their head. I'm thankful for the clothing I have on my body because some people can't afford what I have. I am thankful for my friends because I have someone to play with and have fun with. I am thankful for life on earth. I am also thankful for my life and the people that brought me into this life.

well that is what I'm thankful for.

I'm Blessed

Hello my name is Valerie Maturana, and a holiday is coming up. This holiday involves being thankful and having a feast with your family. In the next paragraph I will be telling you what I'm thankful for as in the holiday Thanksgiving.

I'm thankful for many things in my life. One of the things I'm thankful for is my family. Like to be honest with you, what would you do without your family. Another thing I'm thankful for is clean running water. Some of the places around the world don't have clean running water. The next thing I'm thankful for is food. I'm thankful for food because food is also some of the thing you need to survive. Another thing I'm thankful for is my education. Without my education I wouldn't have the smartness I have now. Finally the last thing I'm thankful for is having friends that care about me and support me. Friends are just like family, for a helping hand.

Thank you so much for reading "Why I'm Thankful". Hope you enjoyed my essay.
Sincerely, Valerie

Thankful

I'm thankful for mostly all the things in my life. Maybe not everything but most of it like my Mom my Dad & sisters brother and all of my family and friends. I am going to use this essay to tell you about everything I'm thankful for.

The things I am thankful for are my family, having food on my table whenever I'm hungry, having a cell phone and most of all my health. I am thankful for my parents because without them I won't have a cell phone or food on the table and they can't pay my pay my phone bill when I'm sick. I'm also I'm thankful for a nice beautiful house to live in so that concludes what I'm thankful for.

That will conclude all the things I am thankful for.

Have a Happy
Thanksgiving

What I'm Thankful for

I am thankful for many reasons. Just like last year I am always thankful.

I am thankful for my parents who raised me. I am also very thankful for my house. Every day my parents always say, "You should always be thankful for what you have." I am also very thankful for my sister. I am also very thankful for my friends. And last but not least I am thankful for the food my mom gives me every day.

I hope that you are also as thankful. And hope you have a great Thanksgiving.

Why I Should be Thankful

Some people say why should I be thankful. Some people say there is nothing to be thankful of. Getting what you want is not being thankful.

I am thankful for many things. I am thankful for living in a house, having food to eat, having cloths to wear, education and my teacher in school, my family and friends. I am also thankful for the technology and freedom.

I am thankful for all of these things because there are people out there that don't get food to eat, cloth to wear, house to live in, have education in school, and freedom to live equally. People should be thankful for whatever they have. I am thankful for everything I have and I do.

Some people are not thankful because they keep asking for more and more. People should be thankful for how they look, their family, what they do, there are people out there that don't have food, cloths, house, family, friends, and they still thankful for whatever they have.

What are You Thankful for This Year?

There are many things to be thankful for this year! You should always be thankful for everything that you have.

I am thankful for everything that I have in life. Everyone should be thankful as long as they have food, water, a home and education. I have those things. I am especially happy to be taught ELA by Mrs. Fitzpatrick and Mrs. Lobarova. I thank God and my family for what I have every day. I am also thankful to be appreciated by others, and having a family that cares about me. I also appreciate having extra money to go out and have a great time with my friends.

I am thankful for everything that I have. This is because if you are not thankful for what you have you will not get good things to happen to you in life. One example of not being thankful is disrespecting others which you should never do. One example of being thankful is by simply saying thank you or helping others.

This is a very important life lesson because you will use it your entire life and teach your kids this lesson. I will always be thankful for what I have in life.

I am thankful for many things in 2016. I am so thankful for these things because some people don't have these things.

I am thankful for many things I have. I am grateful for my family and I value the things they give me. I am thankful for my education and how I have the privilege to learn! I am thankful for my health, and if I'm sick I can get medicine to help! I always appreciate technology, and easier transportation systems. I am thankful for laws. I am thankful for my home, the food I eat, and the clothes I wear. The last thing I'm thankful for is my friends.

I am thankful for many things, and these are the reasons why! I am thankful for my family because if I get hurt they help heal it. I am grateful for education because then I wouldn't be able to do math or spell. I am thankful for laws because if we didn't we would be in a crazy world. I am thankful for clothes, food, and home because without them I wouldn't be alive. I am thankful for technology because it brought us light, electricity, and transportation systems. Finally is my friends who I am thankful for making me laugh!

I am thankful for all these things because without them I wouldn't be the person I am today! I appreciate all these things!

Your Teachers, Parents, family member or anyone else.

You can be thankful for a person. For example you're thankful for a best friend because he/she helped you with your homework. Or your mom prepares lunch for you. I am thankful for my family. What are you thankful for?

I am thankful for my mother. She helped me through a suffering on my skin. She's the one who helps me go to the doctor. Also I am thankful for my teachers to teach us so later we can have better jobs. Another is my little brother who makes me laugh. Finally my dad who cares about me. Be Thankful!

You can be thankful for anyone. So come on Be Thankul! Who are you thankful for?

What im thankful For this year

This year im thankful for many things. One of these things involves with my family, life, and education.

This year, 2016, I am thankful for my education which I get at school. My home where I could eat, sleep, bathe, and have my life. My family as well, which gave me life so I can have a life as well like theirs. Also, for my school which, has been improved. Here I could get a job and a better life. Last is for the movie theaters which has entertained me over the weekends in my break.

This reason for being thankful this year is because without these stuff I won't know why im thankful this year. For example, for my education. If I didn't have education I couldn't get a good job in the future. Another example could be for my family. If I didn't have no family I couldn't know on what to do in my life. My last example is for

my friends. The reason for this is because without them I don't know who to hangout with. It could also be because I don't know who to talk with.

For my conclusion, this year has been the farmost the best year of my life! These are the things that i'm thankful for this year!

What To Be Thankful For?

There are many things to be thankful for this year. I was thankful for many things and I appreciated many things as well.

I am thankful for to have all my needs to support my life. I always share a laugh with a friend or a peer. I really value those two things! My family owns a house, has money to support our lives and to give me many of my wants. I am respected and valued by my teachers, family, and friends. I also have education taught to me. Most importantly, I have all 3 meals every day. I am always appreciated by the people around me! That is what I am thankful for!

I am thankful for a lot of things, all of them have reasons why I am thankful for them! To have all my needs is really important because I can't survive without my needs. I am always valued, appreciated, and respected by everyone around me, it makes me feel like I am doing something right! To be supported as I am, makes me very grateful! I also am taught education, some kids are not taught education. Education will support me as I grow up. That is why I am thankful for these things.

What I am thankful for this year

This year I was thankful for many things. This year many things happened like learning new things, having new things, and earning new things. And those things will make me accomplish my goals in life.

I'm thankful for many things such as family, friends, money, a house, food, a ps⁴, clothes, and most of all education. I am thankful for those things because you need family, and friends, to make you happy. I am most thankful for my education because it could help me in many things in life, such as experiencing things, getting a good job, and a better life.

I am thankful for a family because they take care of me and they help me whenever I need them. Although clothes, food, money, and a house, are all the same to me but I really need them in my life. But most of all, what I'm really thankful for this year is my education because it will really affect my life in the future! Education is most important to me because when I'm older, I'll have a great house, a good job, and especially a great life!
