

The things that I am thankful for this year is that I can have a good education and teachers that help me learn things that kids in other parts of the world can't learn. I'm thankful that I can have good grades.

I am also thankful that I can spend time with my family. My parents always make me happy even when they are having a bad day. They would buy me anything I want just to make me happy. My aunt lets me come over any time I want so me and my cousin could have fun. I love my family and I am so happy that I can spend time with them.
